

How accounting firms like yours view modern tech

Accounting firms know the latest technologies—like the cloud and AI—can help them simplify and get more time back, but adopting them can feel overwhelming. Here's how firms with 1-15 employees view technology today.

66%

see high value in the cloud

BUT ONLY

16%

have all their apps & data in the cloud

59%

can't access their desktop apps remotely

55%

still aren't using AI

56%

need to log into separate dashboards to access apps & data

38%

use a mix of internal and outsourced IT

68%

of firm owners are still managing their own IT

AND ONLY

27%

feel confident about AI

Want to modernize but don't know where to start?

Technology shouldn't hold you back. Rightworks makes sure you have the right tech and security, so you can build your best firm.
