

A Simpler Path to the Cloud

You don't have to do everything at once to move your business forward. Here's how businesses like yours move to the cloud—at their own pace.

1

Assess what's slowing you down

- Remote work challenges
- Manual software updates
- Data security concerns
- Managing too many tools

"The question isn't whether to adopt the cloud—it's how."

- *The Business Owner's Cloud Playbook*

WANT TO GO DEEPER?

2

Move QuickBooks® Desktop to the cloud first

What you get:

- Collaboration in the same files, from anywhere
- Automated updates & data backups
- A super-fast, secure workspace for your apps
- Built-in enterprise-grade protection

PRO TIP

If you rely on QuickBooks to run your business, hosting it in the cloud is an easy way to reduce daily friction—fast.

3

Explore more of the cloud—when you're ready

Hesitant to expand to more cloud-based apps?

That's normal.

Let's clear up a few myths about the cloud.

Myth		Reality
It isn't secure	→	Built-in data protection & backups
You lose control	→	Gain visibility, flexibility, & support
Learning new systems	→	Keep all your tools & workflows

4

Move your business 100% to the cloud

Loving the flexibility and security of the cloud? Next, choose a partner that can help you migrate fully.

- ✓ Technology designed for how you actually work
- ✓ Handles updates for you, without disruption
- ✓ Built-in data protection & automatic backups
- ✓ Supports the apps you rely on—with room to grow
- ✓ Expert support & onboarding help—24/7

Move at your pace. End the tech headaches for good.

Whether you're ready for the cloud or making stops along the way, see how Rightworks Cloud Hosting helps businesses run more smoothly.
